

TELEHEALTH INFORMED CONSENT

The Counseling Center will provide mental health services by telephone or video conference effective 3/16/2020 until 4/13/2020 for the purpose of routine follow-ups. Existing scheduled appointments will be conducted remotely and providers can call or contact by other means remotely their clients at their scheduled appointment time.

However, if you do not wish to be contacted remotely, please email your counselor or contact the Counseling Center to alert us of your preference or concerns.

If you do wish to keep your scheduled appointment time remotely, please know that your counselor will be emailing you to confirm this appointment.

At this follow-up, you or your counselor may decide counseling services in your locality for ongoing support and counseling vs. remote contact would better serve your needs, efforts will then be made to assist in this referral.

Confidentiality still applies to remote sessions; however, it is important to be in a quiet, private space, preferably with a secure internet connection.
