

- 4) **Lack of perceived need:** What does your college or university do to educate students on the signs of mental health concerns and when to seek help or make a referral?
- 5) **Accessibility:** How does your campus provide affordable and accessible mental health support services for your students?
- 6) **Cultural barriers:** What is your campus currently doing to ensure members of diverse populations feel comfortable seeking the services offered?

Now that you have explored what you currently have in place, spend some time exploring what else you can do to reduce barriers for seeking services. Record your ideas under each of the six major category headings.

1) Limited options:

2) Knowledge:

3) Personal attitudes:

4) Lack of perceived need:

5) Accessibility:

6) Cultural barriers:
